

Prayer Diary

For

Kirkcaldy Street Pastors

Prayer Pastors Support Team

Saturday 11th May 2019

Team C.M., P.B., L.C., G.L..

The night itself was overcast but mild. It threatened to rain but did not; turning a wee bit cold towards the end of the night.

Please pray for :-

~ visitors from Australia, attending a local wedding and planning their own wedding next year.

~ 'young' people who appear to be attracted to the night life. Please pray that they quickly become disillusioned by that attraction.

~those who are off work just now. Please pray that they make a quick and full recovery.

~students who are struggling with formal studying at college. Life has so many different ways of learning.

~the young talented singers who publicly respected their mum.

~the street pastors in other towns who are subject to much busier streets.

~the families of nightlife workers who are currently dealing with their own heavy issues.

~the students studying English who have to prepare an argumentative essay on Muslims and Christians.

~the young girl being physically carried to her lift does not suffer too much in the morning.

~the young girl got home safely to a distant town. (the taxi driver, very kindly offered a lower fare when informed by the street pastor that is all the money she had.)

~that all on the streets quickly realise the hugely important reason and significance of our hats and refrain from removing them from the heads of

street pastors without our knowledge and permission.

~ please pray for the committee, the support team and the prayer team who collectively are as important to the initiative as the street pastors.
